## Section IV

**Section IV Table of Contents, Conservation Practice Standards** - Replaces previous Change Notice updates.

**Animal Mortality Facility (316)** – This is a new conservation practice standard that address several animal mortality methods. This standard incorporates technology from Florida interim conservation practice standards Animal Mortality Freezers, Code 774 and Incinerator, Code 769. This notice cancels Conservation practice standards Animal Mortality Freezers, Code 774 and Incinerator, Code 769.

**Dam, Code 402** – The national conservation practice standard was formatted to a Florida conservation practice standard.

**Nutrient Management, Code 590**, This Florida conservation practice standard is updated to reflect current national and state policy.

**Obstruction Removal, Code 500**, The national conservation practice standard was formatted to a Florida conservation practice standard.

**Prescribed Burning, Code 338**, This Florida conservation practice standard is updated to reflect current national and state policy.

**Prescribed Burning Job Sheet, FL-338-JS**, This Job Sheet should be used when providing technical assistance on prescribed burning, when preparing general planning information, and/or, site-specific recommendations. File this JS behind the practice standard in Section IV of the FOTG as a reference copy.

**Pest Management, Code 595**, This Florida conservation practice standard is updated to reflect current national and state policy.
